

Chain Rescue Kit 1084562

- Complete chain rescue kit with all necessary materials to ensure a safe and fast chain rescue
- The high-performance chains (quality class 12) are particularly light in weight and have square chain links, which ensure an extreme grip, when wrapping car columns.
- The 3 m long chains can be adjusted in length by a shortening hook (with securing bolts)
- Designed for use on a 50 kN winch and not for lifting!
- Included weight blanket for better visibility of the steel cable and for protection against straining
- Packed in 2 transport cases (front and rear of the car)
